

# CAKE CARE

[www.whippedbygeo.co.nz](http://www.whippedbygeo.co.nz)

Transport cake on a stable, flat surface with the aircon on. We recommend the floor or the front passenger seat or the boot of your car.

Your cake **MUST** be kept out of direct sunlight and warm spaces at all times. Please store it in the fridge until you need it.

Remove your cake from the fridge and box no longer than 1-1.5 hours before you are cutting it.

Pics or it didn't happen!  
We love seeing our cakey creations in their new homes. You can tag us on our socials @whippedbygeo or email straight to us - it means the world!

Be sure to remove all non edible products on your cake - if you have any of these, they will be listed on your Allergen Card.

Store any leftover cake in an airtight container for up to 5 days in the fridge or up to 3 months in the freezer.
